claude-proxy

Python provider failover proxy.

mcp-football-server

Football data for LLM agents.

auto-notifier

Python notifications on PyPI.

EDUCATION

Seneca Polytechnic

Software development coursework
Two semesters

LANGUAGES

English
Portuguese (native)

EXPERIENCE

Full Stack Developer and IT Support

TDX-Management · Door2Door

Toronto | May 2023 - Present

- Own the platform that replaced company spreadsheets, supporting engagement with **120,000+ households** since 2023 across both backends.
- Built a real-time React dashboard for **88 sites** with agent maps, shift tracking, alerts, KPI charts and record filters.
- Shipped configurable forms with shared validation and audited, retry-safe submissions. Managers change campaign rules without a deployment.
- Gather requirements from operations and client data teams; write specs and integrate Salesforce, ArcGIS FieldMaps and Stripe.
- Enforced JWT identity checks with rollback support. Building an offline Expo app; fixed SQLite contention between GPS and form saves.

Founder and Developer

NerdyPup

Toronto | 2026 - Present

- Build a shared dog-care app using Expo, Convex and Clerk, with subscriptions and push reminders. **In closed testing on Google Play.**
- Implemented AI provider fallback and timeouts, membership-based access, and scheduling that prevents duplicate reminders.

Hospitality

Hotels and Restaurants

Rio de Janeiro | 2009 - 2013

Guest-facing roles in busy hotels and restaurants near Sugarloaf, with firsthand experience of hospitality operations.
